Assignment One

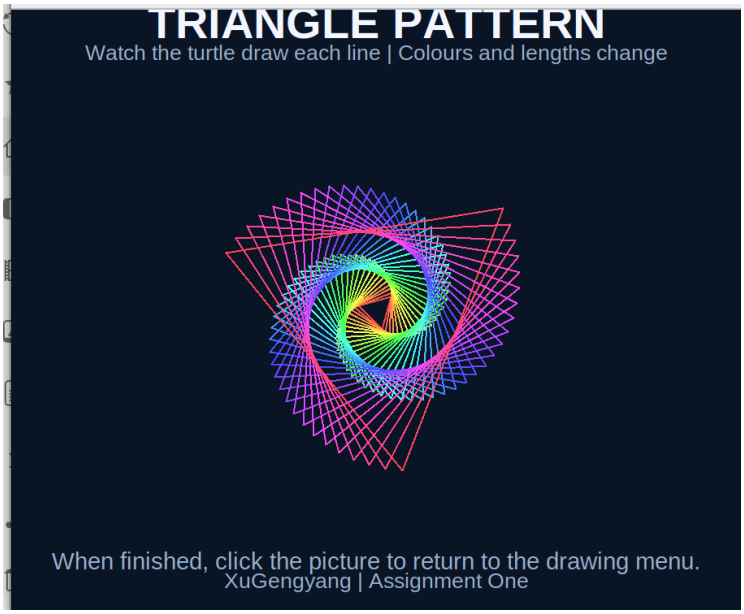

Name: XuGengyang

Square Pattern

Five-Pointed Star Pattern

Triangle Pattern

Assignment One

Name: XuGengyang

```
Topics: HKU, robot, jetson, ai, human
Ask about one topic at a time. Example: What is Jetson Nano?
Enter 0 or back to return to the main menu.

You: HKU
Bot: HKU stands for The University of Hong Kong.

You: robot
Bot: A robot is a programmable machine that can perform tasks automatically o
r under human control.

You: jetson
Bot: Jetson Nano is an NVIDIA embedded computer designed for AI and robotics
projects.

You: ai
Bot: AI stands for Artificial Intelligence. It helps computers perform tasks
such as learning, recognizing images, and understanding language.

You: human
Bot: A human is a person. Humans can think, communicate and create; they also
 design and guide AI systems.
```

QA Bot

```
1. Turtle Drawing
2. QA Bot
3. Simple Calculator
0. Exit
Choose a function (0-3): 3

--- Simple Calculator ---
